ADVICE LETTER NO. 1442

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits this advice letter, including the following attached tariffs applicable to all Service Areas.

**Purpose:**

The purpose of this advice letter filing is to collect the remaining balance for in the 2019 General Rate Case (“GRC”) Interim Rate Memorandum Account in connection with California American Water’s 2019 General Rate Case in A.19-07-004 as authorized through Advice Letters 1378-1380. This request is in compliance with authorizations of the California Public Utilities Commission as detailed in the Rate Case Plan in D. 07-05-062 (“RCP”) and the *Administrative Law Judge’s Ruling Granting Interim Rates* (“Ruling”) issued on September 10, 2020, in A.19-07-004.

**Background:**

California American Water filed Advice Letters 1378-1380 on July 18, 2022. Through these filings, California American Water requested that the 2019 GRC interim rate true-up be collected via quantity-based surcharges through the end of 2023 which covered the remaining General Rate Case period. The CPUC approved Advice Letters 1378-1380 on August 11, 2022 which authorized California American Water to collect the Interim Rate True-up balances through quantity-based surcharge which was based on forecasted sales. Because drought conditions existed beginning in late 2021 and into 2022, California American Water activated Stage 2 of its Water Shortage Contingency Plan as authorized per Rule 14.1 and Schedule 14.1 for its Southern Division service areas in January 2022. Additionally, rainfall in 2023 was significantly higher than average, and in particular in Southern California where precipitation levels across the region were between 150-200% of normal. As a result of both the 2022 drought and the heavy rains in 2023, water sales were significantly lower than anticipated. Because water sales were significantly lower than forecasted in 2023, California American Water did not collect the full authorized Interim Rate True Up balances by the end of 2023 when the Interim Rate Surcharge ended.

As described in Advice Letters 1378-1380, D.21-11-018 was issued on November 23, 2021, nearly one year after 2021 test year rates were scheduled to be in effect. Given the delay in the final decision, California was granted authorization to track in a memorandum account the difference between interim rates and final rates for subsequent recovery or refund. Consistent with the Ruling, California American Water filed Advice Letter 1318-A which implemented interim rates effective January 1, 2021 and established the GRC Interim Rate True-up Memorandum Account to track the differences between revenues billed at interim rates and revenues that should have been billed under the final rates implemented and billed under D.21-11-018.

Consistent with D.21-11-018, California American Water filed its GRC implementation advice letter, Advice Letter 1353, on December 23, 2021. California American Water then filed for 2022 Escalation Year Rates (Advice Letter 1357) and its 2022 Annual Consumption Adjustment Mechanism ("ACAM") (Advice Letter 1360), also consistent with D.21-11-018. All rates and tariffs associated were implemented and began billing on March 4, 2022.

In order to calculate the interim rate true-up, California American Water needed new rates to bill for multiple billing cycles.

California American Water submitted its Interim Rate True-up filings in July 2022 and the surcharges ran until the end of 2023.

**Request:**

California American Water requests to collect the remaining Interim Rate True-up balances associated with A.19-07-004 as authorized through Advice Letters 1378-1380 via a quantity-based surcharge for its Northern, Central, and Southern Divisions.

The total remaining under collected balance in the Northern Division is \$134,013, the Central Division is \$420,646 and the Southern Division is \$3,749,626.

California American Water also requests that at the end of the amortization periods, any over or uncollected balances will be transferred to the Consolidated Expense Balancing Account ("CEBA") for refund or recovery.

**Tier Designation:**

These tariffs are submitted pursuant to General Order No.96-B and this advice letter is submitted with a Tier 2 designation.

**Effective Date:**

California American Water requests an effective date of May 10, 2024.

**Notice and Service List:**

In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically to interested parties having requested such notification. ***Please note that this advice letter will only be distributed electronically.***

7. A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.
