ADVICE LETTER NO. 1444

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits this advice letter, including the following attached tariffs applicable to all Service Areas.

Purpose:

The purpose of this advice letter filing is to collect and refund remaining balances for the 2019 General Rate Case (“GRC”) Interim Rate Memorandum Account in connection with California American Water’s 2019 General Rate Case in A.19-07-004 for Private Fire Service Customers. This request is in compliance with authorizations of the California Public Utilities Commission as detailed in the Rate Case Plan in D. 07-05-062 (“RCP”) and the *Administrative Law Judge’s Ruling Granting Interim Rates* (“Ruling”) issued on September 10, 2020, in A.19-07-004.

Background:

As described in Advice Letter 1384, D.21-11-018 was issued on November 23, 2021, nearly one year after 2021 test year rates were scheduled to be in effect. Given the delay in the final decision, California was granted authorization to track in a memorandum account the difference between interim rates and final rates for subsequent recovery or refund. Consistent with the Ruling, California American Water filed Advice Letter 1318-A which implemented interim rates effective January 1, 2021 and established the GRC Interim Rate True-up Memorandum Account to track the differences between revenues billed at interim rates and revenues that should have been billed under the final rates implemented and billed under D.21-11-018.

Consistent with D.21-11-018, California American Water filed its GRC implementation advice letter, Advice Letter 1353, on December 23, 2021. California American Water then filed for 2022 Escalation Year Rates (Advice Letter 1356-1358) also consistent with D.21-11-018. All rates and tariffs associated were implemented and began billing on March 4, 2022.

In order to calculate the interim rate true-up, California American Water needed new rates to bill for multiple billing cycles.

California American Water submitted its Private Fire Interim Rate True-up filing, Advice Letter 1384, on August 19, 2022 and the surcharges/surcredits ran until the end of 2023. Through this filing, California American Water requested that the 2019 GRC interim rate true-up for Private Fire Service Customers be collected/refunded via meter-based surcharges/surcredits through the end of 2023 which covered the remaining General Rate Case period. The CPUC approved Advice Letter 1384 on September 26, 2022. The results of the Private Fire Service IRTU was an overcollection in the Northern Division and undercollections in the Central and Southern Divisions respectively. California American Water recently determined that in Advice Letter 1384, it inadvertently flipped the signs for the Private Fire Service balances. Therefore, Northern Division

Private Fire Service Customers were billed a surcharge while Central and Southern Division Private Fire service customers were billed a surcredit. As a result, Northern Division customers should be issued a refund, while Central and Southern Division customers should be issued a surcharge in order to balance the Interim Rate True-Up.

Request:

California American Water requests to collect and refund remaining Interim Rate True-up balances associated with A.19-07-004 for its Private Fire Service customers via a meter-based surcredits for its Northern Division customers and meter-based surcharges for its Central and Southern Divisions.

The total remaining over collected balance in the Northern Division is \$153,620. The remaining under collected balances are \$133,088 in the Central Division and \$202,217 in the Southern Division respectively.

California American Water also requests that at the end of the amortization periods, any over or uncollected balances will be transferred to the Consolidated Expense Balancing Account ("CEBA") for refund or recovery.

Tier Designation:

These tariffs are submitted pursuant to General Order No.96-B and this advice letter is submitted with a Tier 2 designation.

Effective Date:

California American Water requests an effective date of May 29, 2024.

Notice and Service List:

In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically to interested parties having requested such notification. ***Please note that this advice letter will only be distributed electronically.***
