ADVICE LETTER NO. 1011-A

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits for filing the following tariff sheets applicable to its Monterey County District which are attached hereto:

<u>C.P.U.C. Sheet No.</u>	<u>Title of Sheet</u>	<u>Canceling Sheet No.</u>
7148-W	Schedule No. MO-1 (Continued) Monterey County District Tariff Area <u>GENERAL METERED SERVICE</u>	7032-W
7149-W	Table of Contents Page 2	7144-W
7150-W	Table of Contents Page 1	7147-W

Purpose:

This advice letter filing is being made to establish the Sand City Moratorium Exemption Service tariff (Tariff Sheet 7148-W) as authorized by the California Public Utilities Commission (Commission) in Decision (D.) 13-04-015. This supplemental advice letter filing incorporates the approved Tariffs from Resolution No. W-4955.

Background:

Pursuant to D.11-03-048 and a 2009 Cease and Desist Order by the State Water Resources Control Board, California American Water operates under a moratorium in its Monterey County District. The moratorium prohibits, with some exceptions, new connections and certain increased uses of water by existing customers that would be served by diversions of the Carmel River.

On April 29, 2013, the Commission issued D.13-04-015. Per Ordering Paragraph 8, the Sand City Moratorium Exception Service tariff shall be created as follows:

8. California-American Water Company (Cal-Am) must file a Tier 2 Advice Letter for a Sand City Moratorium Exception Service tariff. Such tariff shall apply to new service connections in Sand City so long as the service connection moratorium established in Decision 11-03-048 remains in effect for the Monterey District, and must be filed no less than 180 days prior to the proposed date for commencing such new service. The Sand City Moratorium Exception tariff must provide that new service connections in Sand City

shall be subject to Cal-Am's Monterey District tariffs, with the exception that the water supply price for such service shall reflect the actual costs of the Sand City Desalination Plant. Cal-Am shall use its best efforts to determine such actual costs and may use reasonable simplifying assumptions in creating the Sand City Moratorium Exception tariff. So long as the number of customers taking service under this tariff is seven or fewer residential or small business customers, Cal-Am may use a reasonable proxy methodology to estimate actual costs. Such tariff may use a surcharge rate methodology and must include work papers and other supporting documents necessary to demonstrate the reasonableness of the calculations of the Exception tariff rate. To the extent water from the Sand City Desalination Plant is used to serve customers pursuant to the Sand City Moratorium Exception Service tariff, that water production volume shall be excluded from the Sand City Desalination Plant Purchased Water Balancing Account and Surcharge.¹

In accordance with D.13-04-015, California American Water has calculated a quantity-based surcharge of \$0.3317 per 10 cfs to be applied to new service connections in Sand City to reflect the additional incremental costs of the Sand City Desalination Plant over the current average cost of production in Monterey County District. The surcharge rate was calculated by subtracting from the authorized cost of water for the Sand City Plant (\$2,599 per acre foot or \$0.5966 per 10 cfs) the embedded cost of water production in the Monterey County District (\$0.2649 per 10 cfs).

Revenues collected from the total water production costs on new service connections in Sand City subject to the Sand City Moratorium Service tariff will be tracked separately and excluded from Monterey County District recorded revenues; in addition, water production related to new service connections from the Sand City Desalination Plant will be excluded from Monterey County District recorded production. The average bill impact for the average residential customer using 7.4 ccf per month is an increase of \$24.48 or 34.9 percent. The average bill impact for the average commercial customer using 30.4 ccf per month is an increase of \$100.92 or 21.1 percent.

Request:

Per Ordering Paragraph 8 of D.13-04-015, California American Water is requesting authorization to establish the Sand City Moratorium Exception Service surcharge as included in Tariff Sheet 7148-W.

Tier Designation:

These tariffs are submitted pursuant to General Order No. 96-B and this advice letter is designated as a Tier 2 filing.

Effective Date:

California American Water requests that the tariffs discussed above, be made effective July 11, 2013.

Service List:

In accordance with Section 4.3 of General Order 96-B, a copy of this advice letter has been served upon all interested and affected parties as shown in Exhibit A.

¹ D.13-04-015, pp. 55-56.

Protests and Responses:

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter.

A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material errors or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Water Division, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:
